

MECHANISMS OF AGEING AND DEVELOPMENT

VOLUME CONTENTS

Volume 54 (1990)

Aberrant gene expression and aging: examination of tissue-specific mRNAs in young and old rats	1
A.I. Sato, E.L. Schneider and D.B. Danner (Baltimore, MD)	
Protein profiles of microsections of the fetal and adult human lens during development and ageing	13
J. Bours, A. Wegener, D. Hofmann, H.J. Fodisch and O. Hockwin (Bonn, F.R.G.)	
Beta-adrenergic responses and airway reactivity in healthy adults	29
P.B. Davis and P.J. Byard (Cleveland, OH)	
Sister chromatid exchange and proliferation pattern in lymphocytes from newborns, elderly subjects and in premature aging syndromes	43
M.I. Melaragno and M. De Arruda Cardoso Smith (Sao Paulo, Brazil)	
The noradrenergic innervation of the ovary in old rats	55
F. Ferrante, E. Bronzetti, C. Cavallotti, A. Ricci and F. Amenta (Rome, Italy)	
Age-related changes of dopamine sensitive cyclic AMP generation in the rat frontal cortex	63
F. Amenta, C. Cavallotti, W.L. Collier, M. De Michele and A. Ricci (Rome, Italy and Venice, FL)	
Influence of aging rate change on mortality curves	75
S. Doubal and P. Klemra (Kralove, Czechoslovakia)	
Effects of aging on phospholamban phosphorylation and calcium transport in rat cardiac sarcoplasmic reticulum	87
M.-T. Jiang and N. Narayanan (Ontario, Canada)	
Presenile (early ageing) changes in tissues of Kaschin-Beck disease and its pathogenetic significance	103
F.-S. Li, Y.-J. Duan, S.-J. Yan, J.-Y. Guan, L.-M. Zou, F.-C. Wei, L.-Y. Mong, L. Li and S.-Y. Li (Shenyang, Peoples Republic of China)	
Oxidative phosphorylation in mouse liver mitochondria during weaning	121
M. Subramanian and S.S. Katyare (Bombay, India)	
Stromal hemopoietic microenvironment in aging	131
A.V. Sidorenko, L.F. Andrianova, T.V. Macsyuk and G.M. Butenko (Kiev, U.S.S.R.)	

Impaired humoral immune responses to mycobacterial antigen in aged murine gut-associated lymphoid tissues	143
H. Kawanishi, S. Ajitsu and S. Mirabella (Northport, NY)	
In vivo immunologic intervention in age-related T cell defects in murine gut-associated lymphoid tissues by IL2	163
S. Ajitsu, S. Mirabella and H. Kawanishi (Northport, NY)	
Age-dependent changes on the sympathetic innervation of the rat kidney	185
J.A. Vega, A. Ricci and F. Amenta (Oviedo, Spain and Rome, Italy)	
Age-related differences in cyclic AMP metabolism and their consequences on relaxation induced by isoproterenol and phosphodiesterase inhibitors in rat isolated aorta	197
P. Schoeffter and J.-C. Stoclet (Strasbourg, France)	
Hypoxia and pharmacological treatment in differently aged rats: effect on muscular metabolite concentrations	207
O. Pastoris, M. Dossena, F. Allorio and L. Vercesi (Pavia, Italy)	
Protein secretion by rat submandibular glands in response to isoproterenol, α -methylnoradrenaline and clonidine during aging	221
E. Tanaka, T. Habu, A. Letić-Gavrilović and K. Abe (Fukuoka, Japan)	
Longitudinal Gompertzian analysis of adult mortality in the U.S., 1900—1986	235
J.E. Riggs (Morgantown, WV)	
Ageing of procaryotes. <i>Acholeplasma laidlawii</i> as an object for cell ageing studies: a brief note	249
A.B. Kapitanov and M.Y. Aksenov (Moscow, U.S.S.R.)	
Clonal lifespans cultured in chemically defined medium, and conventional bacterized medium in <i>Paramecium octoaurelia</i>	259
S. Fukushima, H. Ogawa, T. Nishikawa and S. Sasagawa (Osakasayama, Japan)
